19 is required. Any replacement compact disc submitted
20 should be accompanied by a certification as required by
21 37 CFR 1.52(e) that each disc of a duplicated set is
22 identical to the other disc of the set. If a directory
23 for the disc could be printed, it is attached and non
24 ASCII files are marked in the directory.
25

Response to First Item:

Disc that was submitted was an operational copy of the patent. No patent forms were submitted on the disc. This operational copy of the patent included three directories of a commercially available program **Adobe Acrobat Reader 5.0.5.** These Directories are as follows Reader, Help, and Resource. 1 This patent pertains to the interface between the files
2 listed on the disk, not the files themselves. Each Label of
3 the Disk will be different than the original disk supplied
4 and additionally the disk label will be marked in RED with
5 felt tipped marker that it is submitted as and amendment to
6 the Original Patent Transmittal.

7
8 Second Item:

- 9 • The compact disc(s) submitted fail to comply with 37
10 CFR 1.52(e) that only a single copy of each Compact
11 Disc. Must be provided on Compact Disc Read-Only Memory
12 (CD-ROM) or a compact Disc-Recordable (CD-R) media. Any
13 replacement compact disc submitted should be
14 accompanied by a certification as required by 37 CFR
15 1.52 (e) that each disc of a duplicate set is identical
16 to the other disc of the set.

17 Response to Second Item:

18 We are supplying two additional compact disks.

19 Third Item:

- 20 • This application is objected to because it contains a
21 data file on CD-R however, the transmittal letter does
22 not list for each compact disc, the machine format, the
23 operating system compatibility, a list of the files
24 contained on the disc. Including their names, sizes in
25 bytes, dated of creation, plus any compact disc, that

1 is necessary to identify, maintain and interpret the
2 information on the compact disc as required by 37 CFR
3 1.52 (e) (3). A statement listing the required
4 information is required. Additionally, the Disc(s) is
5 not identified in the paper portion of the
6 specification with a listing of all of the files
7 contained on the disc. When portions of an application
8 are contained on a compact disc, the paper portions of
9 the specification must identify the compact disc (s)
10 and the list of files including name, file size and
11 creation date on each of the compact discs. See 37 CFR
12 1.52(e). Applications(s) are required to amend the
13 specification to identify each disc and the files
14 contained on the disc including the file name, file
15 size, and file creations date.

16 **Response to the third Item:**

17 File Names & sizes are listed in the response in Item #1
18 above.

14
15 Netscape Navigator 4.x or 6.1

16
17 America On Line 5.0 or 6.0

18 **Additional System Requirement Information**

19 Adobe Acrobat is installed on the disc supplied and will
20 self boot with Autorun turned on. If the viewing computer
21 has not run Adobe Acrobat Reader previously the program will
22 ask for acceptance of the end user license agreement (EULA),
23 which is normal. Hard Disk space is overrated because it
24 assumes that reader will be installed on the hard disk. In
25 this case the reader is contained on the compact disk.

1 **Additional Patent Information**

2 Additionally this patent pertains to the interface
3 (relationship between files) not the files themselves or the
4 operating system contained on this disk.
